1. Subject permit to Foreign Broadcast Information Service (FBIS) has been reviewed by this Headquarters and is acceptable for inclusion in the support agreement.
2. The accountability of the housing units will remain with the Air Force. It is true that host tenant relationship with FBIS is not standard since the entire O&M cost for FBIS is reimbursable. However, the objective here is to assure that the housing units become available to the Air Force when FBIS departs.
3. The housing units now occupied by FBIS were constructed by that agency with their funds. Paragraph 3 of the draft permit, that FBIS has agreed to sign, allows the Secretary of the Air Force to terminate the agreement if there is an overriding necessity in the national interest.
